Huddle Pro ✨

Your community is growing. Now run it like a pro.

Boost to Top of Map — Your events surface first in Discover and get priority pin placement. More eyeballs, more RSVPs.

AI Event Generator — Describe your event in one sentence. Huddle writes the title, description, capacity, and tags. Create in 10 seconds.

Analytics Dashboard — RSVPs vs. show-ups, peak days, flake rates, capacity trends. Know exactly what's working.

Scheduled Announcements — Set reminders that auto-send to your RSVP'd attendees: "Game starts in 2 hours, Court 3." No more manual texts.

Audience Insights — See which members attend the most, who's new, who's dropped off. Build your community

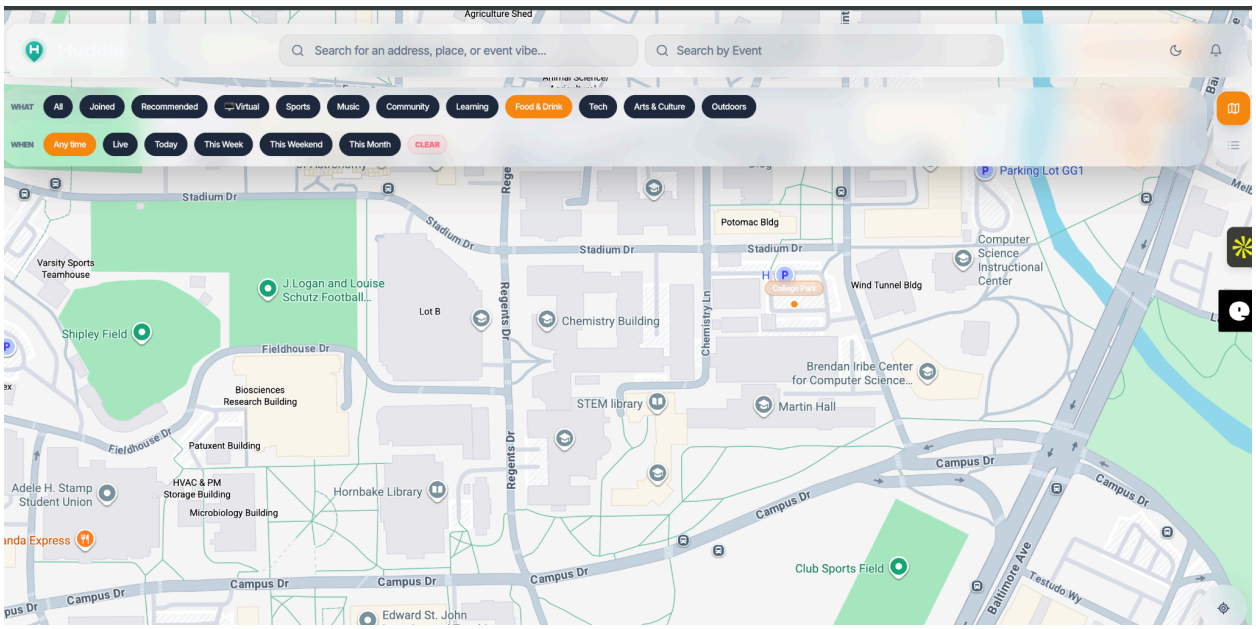
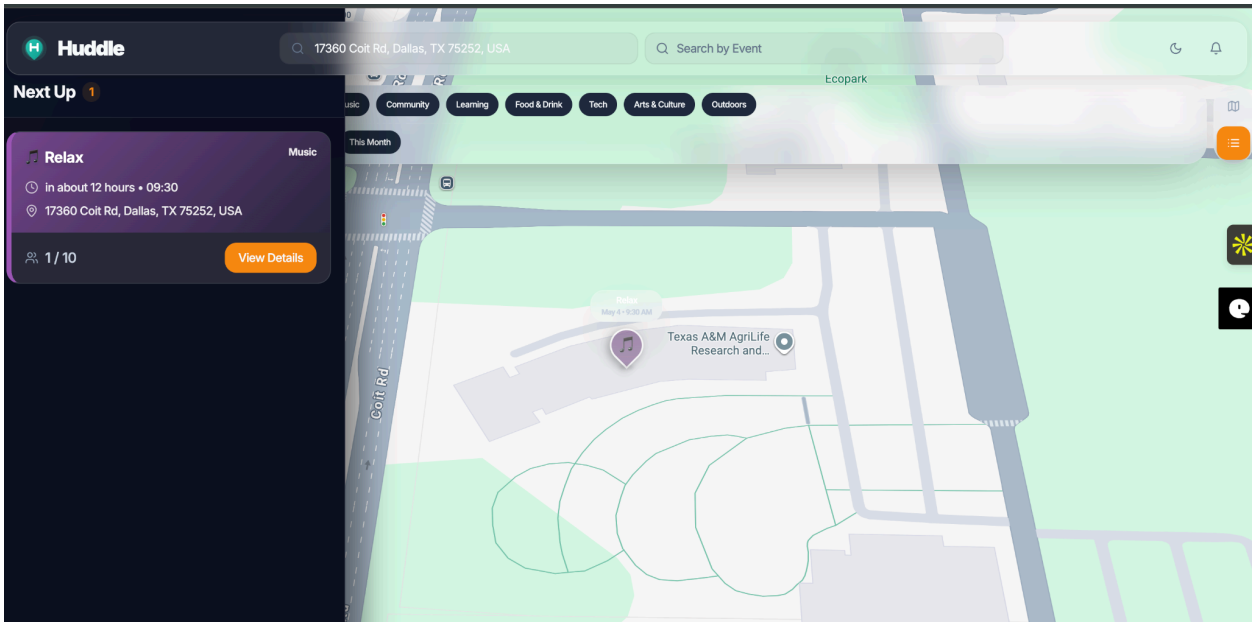
Nice dashboard



Default white map baguntundi rather than dark mode - my personal feeling



Events real time update avvuthunayyi - nice feature
